

Prof. Dr. Sebastiaan Engelborghs, MD, PhD

Reference Centre for Biological Markers of Dementia (BIODEM)

Laboratory of Neurochemistry and Behaviour
Department of Biomedical Sciences, Institute Born-Bunge,
University of Antwerp

Email: Sebastiaan.Engelborghs@uantwerp.be

Phone: +32 3 265 23 94

EDUCATION

- 2009 Master after Master Neurological Rehabilitation Medicine, Faculty of Medicine, UAntwerp
- 2004 PhD in Medical Sciences, Faculty of Medicine, UAntwerp
(Title: *Neurochemical and genetic correlates of behavioural and psychological signs and symptoms of dementia*)
- 2001 Master after Master Clinical Neurology, Faculty of Medicine, UAntwerp
- 1995 Master in Medicine (MD) (with summa cum laude), Faculty of Medicine, Free University of Brussels (V.U.B.)

CURRENT POSITION(S)

- 2014 – Full Professor Neurochemistry & Neurosciences
Faculty of Pharmaceutical, Biomedical and Veterinary Sciences, UAntwerp
- 2008 – Coordinator of the Memory Clinic, Department of Neurology, Hospital Network Antwerp (ZNA) Middelheim and Hoge Beuken
- 2004 – Director, Reference Centre for Biological Markers of Dementia (BIODEM)
Institute Born-Bunge, UAntwerp

PREVIOUS POSITIONS

- 2011 – 2014 Associate Professor Neurochemistry & Neurosciences, Faculty of Pharmaceutical, Biomedical and Veterinary Sciences, UAntwerp
- 2008 – 2011 Associate Professor, Faculty of Medicine, UAntwerp
- 2004 – 2008 Assistant Professor, Faculty of Medicine, UAntwerp
- 2002 – 2011 Assistant Professor, Department of Physical Therapy, Artesis University College Antwerp

KEYWORDS

Dementia – Alzheimer's disease – mild cognitive impairment – frontotemporal lobar degeneration – biomarkers – cerebrospinal fluid – behaviour – BPSD – stroke – depression

SUMMARY BIOSKETCH

Sebastiaan Engelborghs became a medical doctor in 1995, a neurologist in 2001 and a PhD in medical sciences in 2004. He was appointed assistant professor at the University of Antwerp in 2004 and was promoted to associate professor in 2008. He was board certified in Neurological Revalidation in 2009. In 2011, he was appointed research professor neurosciences – neurochemistry at the University of Antwerp and became full professor neurosciences – neurochemistry in 2014.

Both clinically and with regard to research, Sebastiaan Engelborghs is specialized in neurodegenerative brain disorders that cause cognitive impairment and dementia. He is director of the Reference Centre for Biological Markers of Dementia (BIODEM) at the Institute Born-Bunge of the University of Antwerp and coordinates the Memory Clinic of Antwerp (Hospital Network Antwerp), Belgium. His research resulted in (co-)authorships on 203 PubMed-cited papers in international peer-reviewed journals as well as in an h-index of 40 (on June 13th, 2015).
